

Michelle Obama Park – Master Plan (2021)

PROJECT SUMMARY (DISTRICTS 3&6)

The property at 2055 Bouldercreat Rd, comprises two parcels, rectangular in shape and totaling 138.34 acres in the Redan community in Dekalb County, Georgia.

PROJECT TEAM

Wood Environment & Infrastructure Solutions, Inc.

PROJECT ESTIMATE

\$1.3M (2021).

PUBLIC INPUT MEETINGS

- The First Public Meeting was held virtually on Mar 31, 2021
Historical exhibits and maps were presented to provide context for how the area had evolved over the years, and photographs were shared to show the existing features and character of the property. Live polling questions collected initial ideas and dreams for the park. Answers emphasizing historic preservation and/or rehabilitation of existing buildings were more prevalent during the public meeting, as were calls for a playground.
- The Second Public Meeting was held virtually on May 19, 2021
The meeting opened with a presentation and discussion of the survey results, which was followed by a presentation of the vision plan itself. Unfortunately, the neighborhood around 5338 Redan Road lost electricity during this second public meeting.

TIMELINE

Phase I – Landscape Architecture and Engineering Elements.

A&E Services - TBD
